DETAILED ACTION

Response to Amendment

This Office action is in response to amendment filed on 6/29/2006. The presently pending claims are 1 – 10.

Terminal Disclaimer

The terminal disclaimer filed on 6/29/2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration dates of the full statutory term of the patent granted on U.S. Patent 7,003,109 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

1. Claims 1 – 10 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The above mentioned claims are allowable over prior arts because the CPA (Cited Prior Art) of record fails to teach or render obvious the claimed limitations in combination with the specific added limitations, as recited in independent claim 1, 2 and 7 and the subsequent dependent claims.

The CPA does not teach or suggest, mainly, a mechanism of generating a pseudo random sequence in a sequence generator having a plurality of linear feedback

shift registers and nonlinear function generators in such a way that first, in the linear feedback shift registers, generating a first plurality of binary sequences, and secondly, in the nonlinear function generators, applying a plurality of nonlinear functions to said first plurality of binary sequences to obtain an uncorrelated second plurality of binary sequences; and as a result, randomly selecting an output sequence from one of the second plurality of binary sequences to generate a pseudo random sequence in a sequence generator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Longbit Chai whose telephone number is 571-272-3788. The examiner can normally be reached on Monday-Friday 8:00am-4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ayaz R Sheikh can be reached on 571-272-3795. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
